Disclaimer

The author of this book is not a trained dog health professional. It is the reader's responsibility to consult with a licensed, practicing Doctor of Veterinarian Medicine (DVM) (or equivalent in your country) before making any changes to your method of feeding, grooming or any other matter of dog care for any dogs for which you have any responsibility or contribute, in any way, to their care.

Chapter 1: Introduction

Even with the major 2007 pet food recalls and some subsequent dog food and treat recalls, commercial dog foods happen to be the most popular form of dog food in the market.

There are four primary reasons behind this:

- ü You're not interested in cooking
- ü Using commercial dog food is convenient
- ü You may not be confident that the home-cooked food would provide your dog with the appropriate nutritional balance.
- ü You have tried giving your dog home cooked food, but he enjoys the taste of the commercial dog food better.

When commercial dog food is the most popular choice, we decided to help our readers by sharing our findings after extensive research on commercial dog food.

In this section, we have discussed a selection of nine dog food brands.

These twelve brands of commercial dog food are of very high quality and will meet the dietary requirements of your pooch. They are considered some of the best in the market today.

They use the best ingredients available, ensure safe and hygienic manufacturing systems, provide proper packaging and take pride in delivering the best option in dog food to their customers.

While selecting these 12 commercial dog foods, we have researched from various sources to ascertain that they provide the best nutrients and balance

that your dog requires. These manufacturers all follow the AAFCO standards as well as other government regulations placed upon them.

Their ingredients, guaranteed analysis and benefits have been listed such that dog owners, like you, can make an informed decision. In order to help you find them, we have even listed from where these dog foods are available.

For the sake of diversity and to give you an idea about the available options in the market, we have listed dog foods from a range of brands; different from the commonly used household names.

This will help you get an idea of the variations that are available, in case you decide to go with something other than the brands they are feeding now.

However, we would always recommend you to consult your vet first, before deciding to change your dog's food. You must be cautious about feeding new food or changing your dog's diet. Compare these foods to one another and then to what your dog's needs are, discuss with your vet about his nutritional needs and then decide, exactly which brand to choose.

Chapter 2: Top 12 Commercial Dog Foods

CHOOSING THE TOP TWELVE DOG FOODS

Dog Food #1: Canidae Grain Free Salmon

Canidae not only offers food that is safe for human consumption, but their dog food meets AAFCO standards above and beyond.

A. What are its benefits?

- ü High Quality Pacific Salmon Meal as the Main Protein Source
- ü Super High Protein formula great for working breeds or dogs with high energy requirements
- ü All Natural, High Quality, Holistic Pet Food
- ü 80% of the total protein is derived from fish, 20% from vegetables and fruits, and 0% from grains
- ü Natural Ingredients Plus Essential Vitamins & Amino Acid Chelated Minerals
- ü Naturally Preserved Herbal Formulation
- ü Contains Skin & Coat Conditioners to Maintain a Health Luxurious Coat
- ü Balanced Omega 6 & 3 Fatty Acids & DHA
- ü Superior Digestibility
- ü Guaranteed Viable Micro-Organisms
- ü Guaranteed Enzyme Activity to Help Break Down Cellulose
- ü No Corn, Wheat, Soy, Grain Fractions, Glutens or Fillers and Naturally Preserved

B. Ingredients:

Salmon meal, potatoes, potato protein, ocean fish meal, canola oil (preserved with mixed tocopherols), peas, tomato pomace, natural flavor, choline chloride, uncured alfalfa meal, inulin (from chicory root), lecithin, sage extract, cranberries, beta-carotene, rosemary extract, sunflower oil, yucca schidigera extract, dried enterococcus faecium fermentation product, dried lactobacillus acidophilus fermentation product, dried lactobacillus casei fermentation product, dried lactobacillus plantarum fermentation product, dried trichoderma longibrachiatum fermentation extract, vitamin E supplement, iron proteinate, zinc proteinate, copper proteinate, ferrous sulfate, zinc sulfate, copper sulfate, potassium iodide, thiamine mononitrate, manganese proteinate, manganese oxide, ascorbic acid, vitamin A supplement, biotin, calcium pantothenate, manganese sulfate, sodium selenite, pyridoxine hydrochloride (vitamin B6), vitamin B12 supplement, riboflavin, vitamin D3 supplement, folic acid, cobalt proteinate, papaya, pineapple.

Dog Food #2: Orijen Large Puppy

Orijen is a family-owned and operated Canadian pet food maker. With a tradition of innovation & quality spanning more than a quarter century, they have won the Pet Food of The Year Award in 2009-2010 by the Glycemic Research Institute. They use fresh regional ingredients to produce Biologically Appropriate foods – that ensures a long and healthy life for dogs.

A. What are it's benefits?

- ü High-protein, grain-free and low in carbohydrates, ORIJEN Puppy Large Breed is guaranteed to help your large-sized puppy grow up bright, healthy and strong.
- ü Calcium and phosphorus levels are moderate, perfectly balanced, and of natural source.
- ü Protein from animal ingredients passed 'fit for human consumption', NOT plant proteins like potato or pea isolates, soy or gluteins.
- ü Long chain omega-3 (DHA, EPA) from fresh fish, NOT sunflower, flax or canola (ALA omega-3) which is not useable by dogs and cats.
- ü Fresh chicken cartilage provides a natural, high source of glucosamine and chondroitin.
- ü Veterinary selected botanicals soothe, nourish and tone the digestive tract while strengthening the liver.

B. Ingredients:

Fresh deboned chicken, chicken meal, turkey meal, russet potato, fresh deboned salmon (a natural source of DHA and EPA), herring meal, sweet potato, peas, fresh deboned lake whitefish, fresh deboned walleye, chicken fat (naturally preserved with vitamin E and citric acid), chicken liver, salmon meal, fresh deboned turkey, fresh whole eggs, fresh deboned herring, sun-cured alfalfa, salmon oil, chicory root, dehydrated organic kelp, pumpkin, carrots, spinach, turnip greens, apples, cranberries, saskatoon berries, black currants, choline chloride, psyllium, licorice root, angelica root, fenugreek, marigold flowers, sweet fennel, peppermint leaf, chamomile flowers, dandelion, summer savory, rosemary, sea salt, vitamin supplements (vitamin A, vitamin D3, vitamin E, niacin, vitamin C, thiamine mononitrate, riboflavin, vitamin B5, vitamin B6, folic acid, biotin, vitamin B12), mineral supplements (zinc proteinate, iron proteinate, manganese proteinate, copper proteinate, selenium), dried Lactobacillus acidophilus product, dried Enterococcus faecium fermentation product.

Dog Food #3: Orijen Senior

Orijen is a family-owned and operated Canadian pet food maker. With a tradition of innovation & quality spanning more than a quarter century, they have won the Pet Food of The Year Award in 2009-2010 by the Glycemic Research Institute. They use fresh regional ingredients to produce Biologically Appropriate foods – that ensures a long and healthy life for dogs.

A. What are it's benefits?

- ü Biologically Appropriate ingredient ratio (70/30/0) of 70% meat, 30% fruit and vegetables (and 0% grain).
- ü Protein is from premium 'fit for human consumption' animal ingredients, NOT inappropriate plant source such as potato, soy or pea isolates, or corn or rice glutens.
- ü Omega-3 (DHA, EPA) is from fresh fish, NOT inappropriate sunflower, flax or canola oils (ALA) which are ineffective in the body of a dog or cat.
- ü Calcium and phosphorus levels are moderate and of natural source.
- ü Fresh chicken and turkey cartilage provides a natural and high source of glucosamine and chondroitin.
- ü Veterinary selected botanicals soothe, nourish and tone the digestive tract while strengthening the liver.
- ü Features a minimum of 6 fresh meats to better match the various foods Nature intended puppies to eat.

B. Ingredients:

Fresh deboned chicken, chicken meal, turkey meal, russet potato, fresh deboned salmon (a natural source of DHA and EPA), herring meal, sweet potato, peas, fresh deboned lake whitefish, salmon meal, fresh deboned walleye, chicken liver, fresh deboned turkey, chicken fat (naturally preserved with vitamin E and citric acid), whole eggs, fresh deboned herring, sun-cured alfalfa, salmon oil, chicory root, dehydrated organic kelp, pumpkin, carrots, spinach, turnip greens, apples, cranberries, saskatoon berries, black currants, choline chloride, psyllium, licorice root, angelica root, fenugreek, marigold flowers, sweet fennel, peppermint leaf, chamomile flowers, dandelion, summer savory, rosemary, sea salt, vitamin supplements (vitamin A, vitamin D3, vitamin E, niacin, vitamin C, thiamine mononitrate, riboflavin, vitamin B5, vitamin B6, folic acid, biotin, vitamin B12), mineral supplements (zinc proteinate, iron proteinate, manganese proteinate, copper proteinate, selenium), Lactobacillus acidophilus and Enterococcus faecium fermentation product.

Dog Food #9: Blackwood 7000 Magnum Performance

BLACKWOOD 7000 MPD is formulated for adult canines (18 months or older) performing under high stress conditions or hard work. Ideal for racing sled dogs, pro sporting dogs, police dogs, circuit show dogs, surgical recovery, and under weight situations. It is not meant for average pets. If not fed to extremely hard working animals, obesity will become a severe problem!

A. What are it's benefits?

- ü Founded by serious dog professionals with expertise in showing, field trials and performance dogs, Blackwood's dog foods are formulated by a renowned nutritionist.
- ü Blackwood adheres to the standards of honesty, quality and politeness without consideration to slick advertising techniques.
- ü Uses machinery that produce a "one of a kind" low temperature, slow, crock pot style of cooking that helps in increased digestibility and lessening the workload on the digestive system, thus lowering the stool volume.
- ü Uses sea salt for the added trace minerals, and distinctive Proteinate Minerals, which are absorbed directly into the bloodstream.
- ü Probiotics, or "friendly bacteria," are added to increase digestibility, enhance the immune system, and to help eliminate digestive stress such as vomiting, diarrhea, and digestive flatulence.
- ü Elevated levels of Omega 3 & Omega 6 fatty acids help keep the skin and coat in super condition, as well as prevent summer hot spots and other skin problems.
- ü No soy products, wheat products, chemical preservatives, artificial colors, flavors, fillers, or by-product meals (which can contain feathers, beaks and feet).

B. Ingredients

Poultry Meal, Chicken, Chicken Fat [Preserved with Mixed Tocopherols (Source of Vitamin E) and Citric Acid], Rice Flour, Plain Dried Beet Pulp (Sugar Removed), Wheat Flour, Herring Meal, Dried Whole Eggs, Brewers Dried Yeast, Lecithin, Natural Flavors, Salt, Fish Oil, Potassium Chloride, DL-Methionine, Ascorbic Acid (Source of Vitamin C), Yucca Schidigera extract, Dried Enterococcus Faecium Fermentation Product, Dried Lactobacillus Acidophilus Fermentation Product, Choline Chloride, Vitamin E Supplement, d-Calcium Pantothenate, Biotin, Niacin, Vitamin A Acetate, Riboflavin Supplement, Thiamine Mononitrate, Pyridoxine Hydrochloride, Vitamin B12 Supplement, Menadione Dimethylpyrimidinol Bisulfate (Source of Vitamin K

Activity), Citric Acid, D-Activated Animal Sterol (Source of Vitamin D3), Folic Acid, Potassium Sulfate, Ferrous Sulfate, Zinc Sulfate, Zinc Proteinate, Iron Proteinate, Manganese Sulfate, Manganese Proteinate, Copper Sulfate, Copper Proteinate, Manganous Oxide, Sodium Selenite, Copper Oxide, Calcium Iodate.

Dog Food #12: Canine Caviar Chicken & Pearl Millet Puppy

CHICKEN & PEARL MILLET PUPPY FOOD is a nutrient dense diet, perfect for small and medium breed puppies as well as pregnant and nursing dogs. Carefully balanced with all the vitamins and minerals needed for proper growth.

A. What are it's benefits?

- ü Offers a complete raw meat (dehydrated) diet in dry kibble form
- ü True Holistic diets consider all aspects of the pet's health and nutrition
- ü Easily digested formula quickly settle digestive upsets, reduce itching, scratching, shedding and hotspots.
- ü Address health concerns like kidney, liver and heart disease, diabetes, cancer, and cholesterol.
- ü Pearl millet lowers the glycemic index, which allows the animal to utilize the energy more evenly.
- ü Pearl millet is highly nutritious, non-glutinous, non-acid forming, extremely digestible, beneficial to the stomach, spleen and pancreas, and one of the least allergenic ingredients available.
- ü Sustaining ingredients include canola oil coconut oil, borage oil and white fish for proper Omega 3:6 fatty acid balance, alfalfa, garlic, kelp, and rose hips for the immune system, yucca for hip and joint support, chicory root and papaya for a healthy digestive system, peppermint and parsley for the circulatory system and fresh breath, and lecithin for better nutrient absorption.
